Subject: RE: Proposed Call at 4pm Central

Hello, all. I overlooked a couple comments today during the conference call with Kyle and Greg. The comments are as follows:

With respect to noxious weed coverage (see page 9, Section 5.3), it is standard for EPA to require that noxious weed coverage be no more than 10% for restoration to be considered successful. The plan as currently written states that restoration should be considered successful when noxious weeds comprise less than 15% of areal coverage by the third year after restoration. Please revise the language to reflect that there can be no more than 10% areal coverage of noxious weeds for restoration to be considered successful.

We discussed the potential for five years of monitoring, rather than three. On page 12, please revise the last bullet to reflect that annual monitoring will be conducted August 2016 – 2018, if necessary.

If you have any questions, please feel free to give me a call at 303-312-6359. 'Sorry for any inconvenience.

Conference Call Info:

Dial 866-881-3656
Conference Code is 601-973-8712

Kyle Brock will be the leader of the call and it will begin at 4pm central (about 20 minutes from now). I will not be on the call, but will check with Kyle and Greg afterward to get details.

Thanks,
JB

I suspect Linda is out of the office today. I was unable to reach her at her work number. I'm okay speaking directly to Greg and Kyle.

Monica,

Since we have not heard from Ms. Kato, would it be possible for you to speak directly to Greg Meyer and Kyle Brock about the technical issues regarding the plan? I will volunteer to excuse myself from the call and let you guys discuss technical issues with no lawyers on the line. If this is acceptable to you, Kyle Brock will provide call-in information.

Thanks,
JB
